To whom it may concern:

My name is Boris Svirsky, I own Safeway moving inc as well as several other businesses. Our company is a nationwide and award winning interstate and international moving company. We operate in 50 states and have won several top five nationwide awards three years in a row. I have had the pleasure of hiring Dimitri Sych (Covio agency) for the last 4 years on nine of our business projects.

To say that Dimitri is fantastic at what he has done for my company is a fraction of how we feel. His skills, thoughtful approach, design, timeliness is that of a true professional. We started with our first website redesign. Of the most notable projects, Dimitri constructed safewaymovingsystem.com for us and increased our websites speed tremendously as well as redesigning the entire website from scratch. Additionally, he designed, constructed and helped launch vangovanlines.com, safewaymovinginc.com and movingexperts.com. These websites are made to attract consumers and provide in-depth value of what our company has done and will do for consumers. The evolving land scape of the moving industry means that we as a company must always find new ways to be clear with our mission and always available when a customer needs us. With Dimitri's professional help, we have found a new level to attract and evolve.

As a web designer, Dimitri's skills are far greater than most people we have worked with. His technical experience really made it easy for us to move ahead with our projects. We put ample trust in his capabilities once we noticed he is reliable and quick with our project requirements and timelines. Dimitri does not hold back, he really wanted to give us the best version of our project dream and any changes we asked, he would really take care in helping us complete our tasks. What that showed us was sheer initiative. I have referred him to several of my colleagues over the years and he has done wonders for them. Each colleague that had hired Dimitri has sent me glowing remarks on the websites and projects. Today, it is hard to find reliable and thoughtful people that care. Dimitri time in and time out has shown to us that his determination really is motivated by just being a good person and caring for each project. A stone is never left unturned with his work.
